CANT LIVE WITHOUT MY SYNCHRO

Our star of the show **SYNCHRO**, our most popular product, is the one cream you should not go without.

We all wish for one product that can tackle everything winter has left behind and none come closer than **SYNCHRO**. It is the perfect remedy for dehydration, ageing, wrinkles, couperose and rosacea. Thanks to its unrivalled rejuvenating, nutritive and healing properties, GERnétic's hero product **SYNCHRO** will prepare the skin for any weather to come.

SYNCHRO was originally developed for skin burns and is at the very core of GERnétic's research and philosophy. Its cocktail of active amino acids, trace elements, vitamins and rich oils is designed to nourish, hydrate and calm your skin. It also has the notable property of preventing moisture evaporation from the epidermis. Thanks to its active ingredients, **SYNCHRO** stimulates and maintains an optimal level of cellular renewal.

SYNCHRO got its name from synchronisation – the action of making different elements act together to intensify results and that is how this cream works its magic. Composed of three biological compounds rich in amino acids, it provides energy to the cells to assist in the manufacture of collagen and elastin, increasing skin rejuvenation and tissue repair. A cocktail of Vitamins A, C, E, H and B complex provide essential nutrition and free radical protection to the cells.

Perfect for all skin types, from oily to very dry or sensitive, it can also be used on the bust, body, hands and scalp. Our client testimonials prove time and time again that our much loved **SYNCHRO** is an all-year wonder.

SEA THE DIFFERENCE: RELAX AND UNWIND

In Spring, we spend a lot of time working out at the gym, researching the latest weight loss tips and exhaustively seeking out the best anti-ageing treatments to make us look and feel more youthful, but sometimes it's best to take a breath, relax and let the years drift away. Why not try:

GERNÉTIC SPA BATH SALTS

GERNÉTIC BATH SALTS WITH ESSENTIAL OILS de-stress, remineralise and energise your body. They promote deep relaxation and wellbeing by soothing the mind and the nervous system. **GERNÉTIC BATH SALTS** are also ideal for the relief of cramps and joint pain. They contain essential oils and crystallised sea salt harvested from protected sites, with high concentrations of magnesium, iron, zinc and copper.

GERNÉTIC GERTHÉRAPI CREAM

This calming, emollient and relaxing cream can be used after a workout or as part of your everyday beauty regime. Helps with muscle aches and muscular stiffening with the added benefit of decongesting, toning and detoxifying ingredients and all this while bringing a sense of well-being due to the delicate scent of lemongrass.

GERTHÉRAPI has been described as Natural Ibuprofen by one of our GERnétic Therapist as it is excellent for sports injuries, aches and pains. An extraordinary and unique specialist cream for the body!

GERNÉTIC SPA BEAUTY OIL

GERNÉTIC'S SPA BEAUTY OIL contains two remarkably rich oils (Macadamia and Grapeseed Oil) and two essential oils (Ravensara and Lemongrass) - making this product an ideal massage oil with multiple health benefits. It regenerates the cell membranes, restructures body tissue and protects the skin. **SPA BEAUTY OIL** combats the effects of age, as well as cardio-vascular risks.

It nourishes, smoothes, softens and soothes the skin while promoting lymphatic and blood micro-circulation and detoxifying and stimulating the immune system. At the same time, it tones, energizes and reduces stress. It also reduces arthritic joint pain, as well as cramps and digestive disorders.

Time to Shed your Winter Skin

**Get
Ready for
Spring with
GERnétic**

**Cleanse, Hydrate,
Regenerate,
Rejuvenate.**

Spring is the time to reassess your GERnétic beauty regime to make sure your face and body are ready for the increased exposure to the sun and to other people's eyes.

Cleansing, Hydrating, Regenerating and Rejuvenating are the key elements of the following GERnétic treatments and products which you can mix and match to help you step out and bare all with youthful confidence.

Ageing slows down the production of collagen and elastin, skin becomes thinner, loses plumpness, firmness and elasticity, circulation becomes sluggish. You can't stop the ageing process, but you can boost circulation and help stimulate cell production through beauty treatments.

GERnétic products use cellular therapy to introduce active substances into the body by percutaneous absorption. These substances contribute to the better revitalisation of body cells and regeneration of new cells. Have a look at just some of the wide range rejuvenating beauty treatments using our amazing GERnetic product range:

CLEANSE AND BOOST YOUR CIRCULATION

All GERnétic facials will remove dead skin cells and help to stimulate cell production. Why not try a GERnetic facial incorporating **GERPEEL** and **FLOWER ACIDS**?

GERPEEL is a creamy finely granulated peeling. Its innovative active ingredients stimulate cellular dynamic and effectively eliminate dead cells by restoring youthfulness to the face.

Complexion is more luminous and thoroughly deep-cleansed.

GERnétic's **FLOWER ACID SERUM** boosts the activity of the corneocyte enzyme to very gently accelerate the desquamation process. It improves cellular renewal and promotes hydration and revitalisation.

Or you could try a GERnétic Marine facial using **MARINE GUMMING CLEANSER** containing micro-capsules which dissolve when rubbed, gently removing dead cells while also cleansing the skin. Use once or twice a week for best results.

HYDRATE THE WINTER-COATED SKIN

GERnétic knows that hydrated skin is healthy skin. Our skincare is packed full of vital, essential nutrients, with a rich composition of proteins and amino acids, to empower skin cells with regenerative, protective functions. Experience healthy hydration with our hydrating facials using **CELLS LIFE**, **HYDRA GER** and **GER OXY**!

CELLS LIFE is a hydrating and restoring serum that works at the dermis and epidermis levels. This concentrated blend of essential proteins, peptides and amino acids boosts the skin's ability to retain moisture, deeply hydrating and nourishing the skin from the inside. Visibly reduces fine lines and increases collagen and elastin production, leaving skin replenished and radiant.

HYDRA GER MASK is an intense hydrating cream mask to nourish the skin and assist with moisture retention at a deep cellular level. **HYDRA GER** is enriched with three biological compounds that encourage water molecules to bind together. It will leave your skin plump, smooth and fresh.

Our light-textured **GER OXY** cream activates the skin's micro circulation, increasing moisture to the skin's surface. Seven plant extracts combined with a complex of amino-acids, vitamins and hydrating oils contribute to an increased supply in nutrients to oxygenate, hydrate and protect your skin.

DON'T FORGET YOUR BODY

Cold, rainy winter days can leave the best of us feeling achy, tired, lethargic, unattractive and in need of serious pampering. However, the good news is you don't have to go on feeling like this - a GERnétic body treatment will soon make you feel gorgeous and full of energy again. Our amazing body treatments will work on blood circulation, help eliminate waste products, improve digestion and tighten the skin.

So, why not follow up your facial with a firming, slimming or cellulite GERnétic body treatment with **LYMPHO**, **VEINULO SPECIAL +** and either **VASCO ARTERA**, **ADIPO GASTA** or **SOMITO**?

LYMPHO TONER, accelerates micro-circulation, thus increasing the rapidity and efficacy of the body care products. Its relaxing virtues bring relief to tired legs, leaving you with a pleasant feeling of well-being.

For an extra boost, apply **VEINULO SPECIAL +** Serum to accelerate results.

VASCO ARTERA is the quintessential body cream to effectively combat cellulite, by enabling a better micro-circulation thus making your legs feel lighter. Its draining effects result in the elimination of the dead cells of the resistant areas, with the concomitant elimination of cellulite, leaving you with a smooth and attractive figure.

ADIPO GASTA contains a synergy of plant and seaweed extracts to help eliminate fatty deposits linked to poor digestion, poor elimination and slow metabolism. Rich in iodine and antioxidants, **ADIPO GASTA** boosts metabolism while nourishing and restoring the skin to leave you with a firmer, slimmer body.

Complement these body products with **SOMITO** Firming Cream to strengthen and tone the tissues of the body in all sagging areas. Its immediate and lasting effect improves the natural elasticity of the skin. The active ingredients promote the renovation of collagen fibres and of supporting tissues.

Make this your healthiest, fittest and most beautiful year yet by choosing the best products to support your healthier lifestyle.

MOISTURISE OR BUST

It's time to put away the turtle-necked jumpers and show a bit more cleavage! It is tempting to use your usual body cream on the bust area, but this delicate area needs a special formula of amino acids and other nutritional elements to restructure the elastic fibres and optimise its natural health and beauty.

Thanks to modern research, amazing results can be achieved easily and inexpensively by **MACRO 2000** alongside **SEINO** and **ENDO SPECIAL +**.

SEINO, rich in amino acids, hops, hamamelis and ginseng extracts, is the perfect cocktail to prepare the skin to absorb the active ingredients of the other bust products. If it is extra firmness and harmony you're looking for, try **ENDO SPECIAL +** serum, which is suitable for small, large or distended busts. Packed with biological compounds rich in biopeptides and plant extracts, spray this magical serum onto the bust area a few times a week and see the difference.

ENDO SPECIAL + helps regenerate the connective tissue in the bust by improving their strength and elasticity while also stimulating the cellular metabolism and helping increase muscle tone and firmness of the breasts. To activate collagen and fibronectine and bring your bust to its maximum fullness and tonicity, try **MACRO 2000**, the heart of

GERnétic's bust treatments; it is imbued with biopeptides, a complex of amino acids, plant and marine extracts chosen to boost you where you need it most.

GERnétic's bust products help regulate and rebalance the bust.
